

Orange USD has implemented the following actions in response to the drought:

- Decreased watering times by 50%.
- Applying for Rebates to remove ornamental turf
- Complying with all local and state water restrictions and ordinances
- Bioswale installed at Lampson Elementary
- Drip Irrigation installed at Lampson Elementary
- Smart Irrigation clocks installed at Lampson and prospect
- Usage is monitored by Districts Energy Manager
- All leaks are repaired as soon as reported
- No watering on weekends to avoid breaks
- Soil Sampling to ensure it is not over treated
- Aeration to encourage deep root systems

The District is working with the State Water Board, the Municipal Water District, the Orange County Department of Public works and all 6 of its water suppliers for water conservation funding opportunities including Proposition 1 (The Water Bond).
